

During my time in Perth I stayed with Kelly-Ann M . We lived on the 7 floor in a flat. The location of the apartment building was central and very close to public transportation. Kelly-Ann lived in a nice flat. It was wonderful to live with her and her pet a rabbit named Karsten. My flatmate and I became close friends.

Hugo G is a very nice and helpful person. You could always count on him night and day. Hugo could answer all my questions and gave me good advices. For example during the hospital strike or he went to ER with me on a Sunday. He took good care of his students. He phoned me on a regular basis to asked how things are going or he took us students out for dinner.

I had a wonderful time in Perth,WA. Thanks to the good organizing skills of Interswop. Interswop made things as easy as possible. I made a lot of friends in Australia and I would always do my intership there again.
